

FRED DPF CLEANER

CARTRIDGE FILTER CLEANING STATION

Air Flow (CFM)	1200
Power	120v/1P/60Hz
Amperage	13.2
Hose Length	10 ft.

Diversitech's innovative Fred Diesel Particulate Filter (DPF) Cleaner is the latest addition to the Fred family of fume and dust extractors. Featuring the portability and quality you've come to expect from Diversitech's line of Fred products, the Fred DPF Cleaner can be used in your shop, garage or even on a mobile service truck.

Designed to effectively remove diesel particulate matter and/or soot from most DPFs, the Fred DPF Cleaner uses 1200 CFM of air flow to pull diesel soot and other pollutants from the bottom of the filter while simultaneously pushing compressed air at the top of the filter to dislodge soot, ensuring a thorough cleaning.

The Fred DPF Cleaner pays for itself by extending the life of expensive DPFs. A clean and unblocked DPF also translates into improved fuel economy and increased engine power.

Benefits:

- Compact, portable, 120 volt, single phase
- Easy to operate
- Complies with OSHA guidelines

Applications:

- Semi Truck DPFs
- Transit Bus DPFs
- Heavy Equipment off-road DPFs
- Railroad locomotive DPFs
- Power Generation DPFs
